GLOBAL | We aim to identify the best investments globally, with a strong bias towards developed markets with established shareholder protections.

CONCENTRATED | We undertake thorough independent research on each of our investments and concentrate capital in our best ideas.

QUALITY | We believe the greatest long-term risk-adjusted returns can be achieved by investing in the world's best companies, at attractive valuations.

Quality Industries

GCQ

Our focus is on industries that display *monopoly, duopoly or oligopoly* characteristics, and firms that own highly valuable brands with pricing power.

Some examples include:

Super luxury goods

Global cloud computing

Global consumer payments

Global online advertising

Local monopolies

Credit rating agencies & investment index providers

Why own quality businesses?

Quality businesses are by definition, *less exposed to disruption and extreme downside risk*

As long-term investors, our strategy is to build enduring wealth over the long-term by focusing on *businesses that deliver predictable and persistent fundamental outperformance*

Long-term investment in high quality “compounders” is very **tax efficient**

What is a quality business?

Positioned to predictably grow over many years

Generates high returns on incremental capital, supported by a favourable industry structure and competitive advantages

Has a balance sheet, culture and management team supportive of long-term prosperity

We believe the greatest long-term risk-adjusted returns can be achieved by investing in the world's best companies, at attractive valuations.
